

CPSTT

Full height turnstiles from Alvarado secure sensitive and restricted areas and provide entry control for all kinds of applications. Turnstiles do what a gate or door cannot: provide directional control of each passage and limit access to one person per activation. A turnstile does not sleep, take breaks, play favorites or require a paycheck, it simply provides a secure, unmanned point of entry that significantly increases facility security.

The CPSTT is our most stylish full height turnstile. The CPSTT's clear arms and side panels provide a less industrial look than a traditional all-metal turnstile. It serves as a good alternative to expensive revolving doors. The tandem design requires a substantially smaller installation footprint than two individual turnstiles.

COMMON APPLICATIONS

- Alternative to an Expensive Revolving Door
- Time & Attendance Integration
- Loss Prevention
- Employee and Visitor Access Control
- Unmanned Point of Entry
- Single Direction Traffic Control/One-Way Exiting

Why Alvarado?

Alvarado is the leading manufacturer of full height turnstiles. Since its founding in 1956, Alvarado equipment has been installed in thousands of locations throughout the world.

Our superior product quality, integration expertise and industry leading service and support are just a few reasons that many of the world's most respected companies use our products again and again.

KEY FEATURES

BENEFITS

Clear Side Panel

Clear side panel (Yoke) **looks great and improves visual sightlines.**

Hydraulic Speed Control/Self-Centering

Self-adjusting user pushing tension eliminates slamming and smoothly self-centers the Rotos, **increasing user safety and extending equipment life.**

Rugged Cast Acrylic Arms

Roto arms are cast from 1" thick clear abrasion resistant acrylic to **provide superior protection against forced entry.**

Full Featured Control Board (electric models)

Works with any access control or card reader without added relays, electronics or programming for an **effortless integration.**

Pull Out Top Channel Cover

Stainless Top Channel Cover may be removed horizontally, **reducing the clear overhead space required for removal.**

Space Saving Design

Tandem design **uses 30% less space** than two individual turnstiles.

AVAILABLE MODELS

CPSTT-6X (Electrically controlled)

OPTIONS

Dozens of options and a selection of materials and finishes are available.

COMPLEMENTARY PRODUCTS

MSG pedestrian security gates often accompany full height turnstiles to facilitate delivery of material or bulky items.

RESOURCES

Alvarado's knowledgeable staff understands that many customers do not deal with turnstiles on a regular basis. We offer expert assistance and technical expertise to ensure the best solution is selected for your facility.
